

## The Different Models of Foton Tractors in Australia

There are many things to consider when you are in the market for a tractor, regardless of whether it is the first time you are buying this type of vehicle or if you simply require another addition to your fleet. If you require some extra assistance, a good company will help you find the tractor that will work well for you. All they really need to know is the type of horsepower and the conditions of the terrain where you work.

You can find many brands of [tractors for sale on the Gold Coast](#), but Lovol is one of the best known ones. Lovol is the agricultural part of Foton Lovol International, a company that has been around since 1998. Lovol is one of the highest selling brands of tractors in the world. Their research centres are based in China, Italy and Japan. Their products adhere to the highest international safety standards and they have proved to work perfectly under Australian conditions.

### Lovol 304

This is a compact vehicle that works well with standard attachments. It is a great affordable option that fits most budgets. It has an open and comfortable operator

platform and it can be used with a 4-in-1 loader. It comes with a three-cylinder engine that combines power and economy for an easy operation under any conditions.

#### Lovol 554

Farmers who are looking for a heavy duty solution will love this model. Its weight and agricultural tyres allows it to achieve great traction with the ground. Australian farms have used this popular model for over decade, which is a testimony to its longevity.

#### Lovol 854

This is the flagship model of the entire range. Its cabin is fully air conditioned and if it is combined with a loader it can weight about five tonnes. It is a great purchase for any heavy duty operation.

Regardless of the model that you choose, you need to find a reliable dealer that can provide mechanical support and have a good selection of [tractor implements for sale](#).
